VV PRASAD D.

PROFESSIONAL SUMMARY

· Frontend Developer with **4.5 years of hands-on experience** in building scalable, responsive web applications using **React.js, JavaScript, Redux Toolkit, HTML, CSS, and Bootstrap**.

· Expertise in **UI development**, delivering clean and modular user interfaces optimized for performance and cross-browser compatibility.

· Strong experience in **API integration** using REST APIs, including request/response handling, authentication flows, and error handling.

· Proficient in **Redux Toolkit** for managing application state efficiently and minimizing re-renders.

· Developed **reusable components** and layout structures to ensure consistency and reduce development time.

· Skilled in **debugging and resolving bugs quickly**, improving application stability and user experience.

· Implemented **authentication workflows**, route protection, and role-based access in production-grade apps.

· Focused on **performance optimization**, lazy loading, and minimizing bundle size for fast page loads.

· Contributed to **code reviews, refactoring, and team collaboration**, ensuring code quality and maintainability.

· Familiar with **version control systems (Git/GitHub)** and Agile development workflows.
